

Parking Management FAQ

Q: Why are we changing to a new parking management system?

A: This new system will make it quick and easy for students, faculty, and staff to register vehicles without needing a physical parking permit or sticker. Safety Services will be able to more efficiently and effectively monitor what vehicles come on campus, distribute available parking equitably, and know immediately if a prohibited vehicle enters.

Q: How do I register my vehicle?

A: Log in to [InsideCBU/Click](#) the Safety Services tab and follow the instructions.

Q: Will I need to go to the Safety Services office to register and pick up a sticker for my vehicle?

A: No. Stickers will NOT be utilized with the new parking management system. Your license plate is your parking permit.

Q: Do visitors need to register?

A: Visitors do not need to register, but they must park in visitor parking located in Lots 1 and 9.

Q: How often do I need to register my vehicle?

A: Students: Once each academic school year. That permit will remain valid through the summer following the academic year. Staff/Faculty: Staff and faculty permits are good for three years.

Q: How will I know where to park?

A: When you register, you will receive an email advising the lots you can use. A parking map is available on the Safety Services tab on InsideCBU.

Q: Can I register more than one vehicle?

A: Residential students can register one vehicle. Commuter students can register two vehicles.

Q: When can I register my vehicle?

A: Residential and commuter students can register their vehicles after June 1, 2023.

Q: What if I change housing locations during the semester?

A: Email safetyservices@calbaptist.edu, and we will assist you.

Q: What if my car is in the shop or I get a new car?

A: Email safetyservices@calbaptist.edu, and we will assist you.
