

Study Abroad

Students interested in participating in a Study Abroad program should review all information and eligibility requirements on the [Academics InsideCBU page](#).

Students who have been approved to participate in a Study Abroad program should be aware of the following financial requirements.

1. Students will be charged the amount billed by the Study Abroad program selected in addition to a \$280 CBU Study Abroad processing fee.
2. Students who are approved for study abroad will be registered for the courses approved by the Office of the Registrar and financial aid will be awarded accordingly. In some cases, not all financial aid is able to be applied to study abroad – it depends on the funding source and their requirements. Usually loans and government aid can be applied to study abroad. Institutional Aid (CBU scholarships/grants) cannot be used to study abroad.
3. Expenses not covered by available financial aid are the responsibility of the student and must be paid in full two weeks prior to the study abroad organization's payment deadline or by CBU's Payment Due Date (whichever date comes first). Students studying abroad are not permitted to set-up a monthly payment plan.
4. CBU will not disburse payment to the study abroad organization until payment is received from the student.

Questions related to any balance after aid may be directed to the Student Accounts Office at 951-343-4371 or at StudentAccounts@calbaptist.edu.
