

Accessing SDS Library Guidelines

Steps to take:

1) Follow the Link:

<https://cmn.m3v.net/login.html>

2) Enter Username:

employee@calbaptist.edu

3) Enter Password:

saftey1st

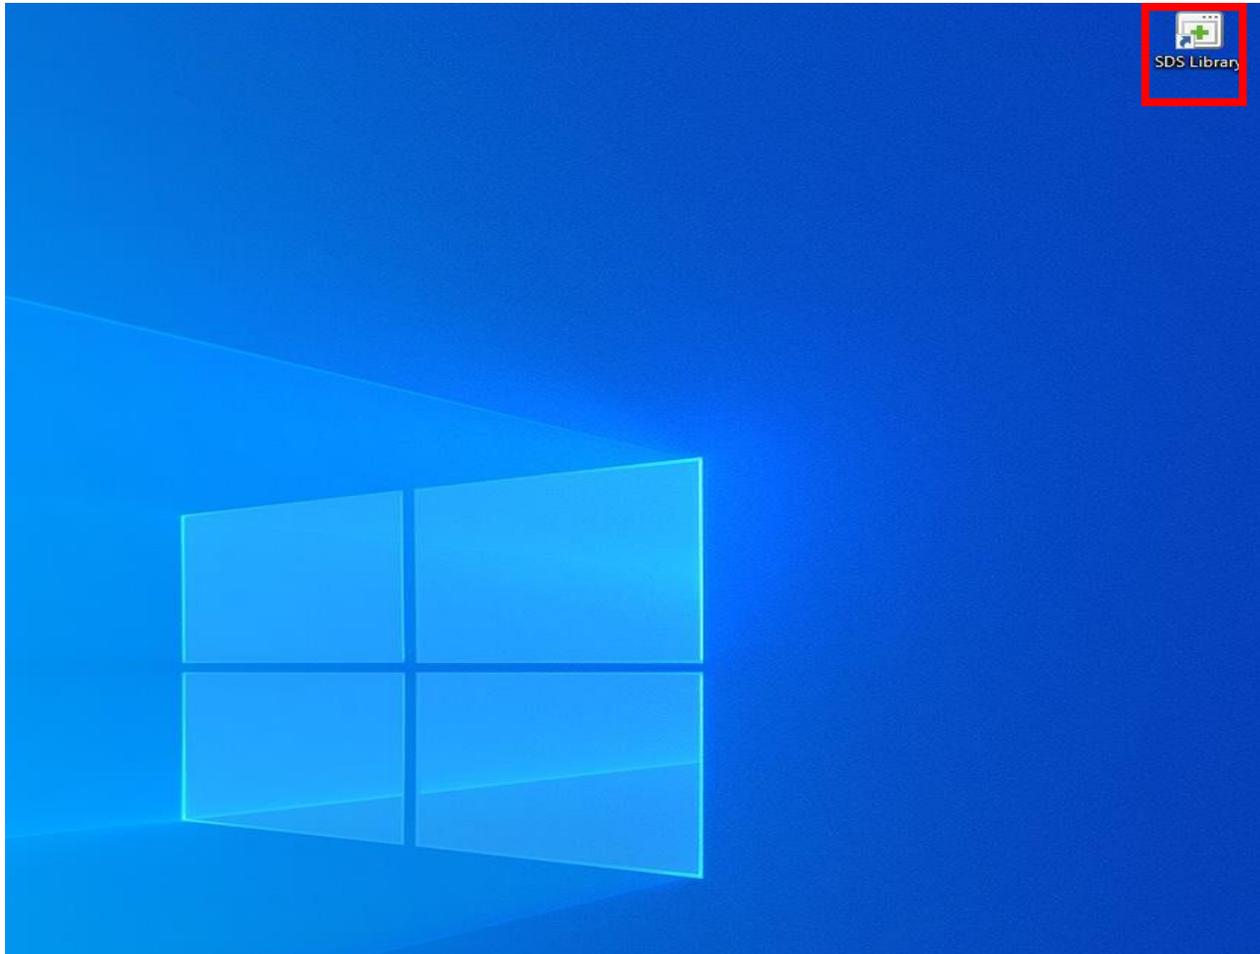

Note:

It is recommended that physical copies of SDSs are posted in a visible space near the chemical storage areas in the event of an emergency or power outage.

It is possible to create a shortcut on your desktop and have your credentials saved or ready.

If there is a new Hazardous Material (chemical) in your workspace, please notify the EHS Coordinator. This would include using a new brand or new product from a different manufacturer that is replacing or substituting a material in your inventory.

Creating a Shortcut:

1. Left click the desktop screen.
2. Scroll down to “New”.
3. Select Shortcut.
4. Under “Type location file”. Copy and paste the link in Step 1.
5. Name short cut “SDS Library”.
6. Left click SDS library short cut.
7. Select “Properties”.
8. Select “Web Document” tab.
9. Select "Change Icon”.
10. Pick an Icon.
11. Save Credentials using password manager on web browser.
